SITE INVESTIGATION AND RESTORATION SECTION – The Division's Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>

LEGAL NOTICE PUBLIC HEARING REGARDING THE A-1 AUTO PARTS SITE (DE-1172)-

Pursuant to 7 Del. C. §9109(a)(3) of the Hazardous Substance Cleanup Act (HSCA), the Department of Natural Resources and Environmental Control (DNREC)-Site Investigation and Restoration Section (SIRS) has rescheduled a public hearing for Wednesday, **June 25** beginning at 10:00 a.m. in the Pat Ellis Conference Room at the offices of DNREC-SIRS, 391 Lukens Drive, New Castle, Delaware 19720. The hearing will address the A-1 Auto Parts Site (Site) located at 410 Garasches Lane in Wilmington. DNREC advertised that the public hearing would be held on May 7, but was recently contacted by the Site owner's counsel to negotiate a Consent Decree to address the performance and payment for a Remedial Investigation/Feasibility Study (RI/FS) to be performed at the Site without the need for an enforcement action. Thus, DNREC agreed to postpone the public hearing to allow enough time to negotiate a Consent Decree. Nevertheless, DNREC will continue to proceed through an enforcement action at a public hearing on **June 25** unless the Consent Decree is signed, pursuant to §9109(a)(3) of HSCA, to require a remediation of the Site.
